

Reusable Vapor Recovery Hose Couplings

Technical Specifications:

Body: Brass

Bushing: Brass

Surface: Electronic chrome plated

HBVRC Series of Vapor Recovery Hose Reusable Couplings are used for the two ends of the vapor recovery hose of a fuel dispenser. One end connects to the vapor separator on the outlet side of the fuel dispenser, while the other end connects to the vapor recovery nozzle or the vapor recovery breakaway. It adopts a clamp-type design. With the use of dedicated installation equipment, users can install it onto a hose of convenient length by themselves. If the hose reaches the end of its service life, the vapor recovery hose coupling can be removed for repeated use, as long as both ends are undamaged, facilitating installation and maintenance.

Specifications:

<u>Item No.</u>	<u>Used for Hose Diameter</u>	<u>Male Thread Size</u>
<u>HBVRC-3/4-M34</u>	<u>3/4"</u>	<u>M34x1.5 (Male Swivel Type)</u>
<u>HBVRC-7/8-M34</u>	<u>7/8"</u>	<u>M34x1.5 (Male Swivel Type)</u>
<u>HBVRC-3/4-1 1/4</u>	<u>3/4"</u>	<u>1-1/4-18 (Male Swivel Type)</u>
<u>HBVRC-7/8-1 1/4</u>	<u>7/8"</u>	<u>1-1/4-18 (Male Swivel Type)</u>
