

The HBJGZJ series of brass hose connectors are specifically engineered for connecting hose to hose, providing a reliable and durable solution for extending the overall length of fuel hoses. Ideal for use with HG-T 3037 standard fuel hoses, these couplings ensure leak-free and secure performance even under demanding working conditions.

Technical Specifications:

Body Material: High-quality Brass
Surface Treatment: Electroplated Chrome Finish for corrosion resistance and a professional appearance
Design: Reinforced structure for improved strength and durability under pressure

Packing:

1" Hose Coupling:
38cm x 26cm x 26cm
100 Pcs/Carton
26.4 Kg/Carton

3/4" Hose Coupling:
36cm x 23cm x 24cm
100 Pcs/Carton
20 Kg/Carton

Ordering Specification (Suitable for HG-T 3037 Standard Fuel Hose)

Item Number	Suitable for Hose ID x OD(mm)
HBJGZJ-3/4	for 3/4" Hose 19 x 30
HBJGZJ-1	for 1" Hose 25 x 37

Applications:

Fuel stations and tanker refueling systems
Industrial fuel hose extensions
Petrochemical and lubricant transfer lines

Disassembled photos: The connector consists of multiple precision-machined components that ensure tight sealing and mechanical stability. Each unit can be disassembled for inspection, cleaning, or maintenance if necessary.

Key Features:

High mechanical strength and longevity
Chrome-plated surface for excellent chemical and corrosion resistance
Easy assembly and disassembly
Secure connection with minimal pressure drop
