

High-Performance Tatsuno Type Fuel Gear Pump

HBZCB-90 Gear Pump, whose material of body is alloy aluminum founded under low pressure, is applicable to gasoline, kerosene, diesel oil and compound of them. Air Separator, By pass Valve, Check Valve, Inlet and Outlet Filter, Decompression are built in.

Technical specification:

Speed:	680~980rpm
Flow Rate:	45L/min~90L/min
Vacuum:	≥ 0.06 MPa
Noise:	≤ 72 dB
Working Pressure:	0.18~0.3MPa
Package:	1pcs/carton
Net Weight:	17kg
Gross Weight:	17.5kg
Dimension:	360×320×300mm

Construction:
