Aluminum Protective Dust Cap for API Bottom Loading Adaptor (4-Inch for Fuel Tankers)

The HB8062BL is a 4-inch aluminum dust cap designed to protect the API bottom loading adaptor from dust, moisture, and mechanical damage during transport and idle periods. Commonly used on fuel tankers, it features a built-in gasket to prevent internal fuel leakage when the valve is not tightly sealed.

Technical Specifications:

Body Material: Full aluminum body
Handle Material: Stainless Steel 304 or Brass
Pin Material: Stainless steel
Seals Material: Buna-N (Viton for option)
Working pressure: 0 - 0.6 Mpa
Temperature range: -20°C to +70°C

Replacement Parts Available as follows:

Sealing gasket for HB8062BL
Steel chain for HB8062BL

Application:

Specially engineered for standard aluminum API bottom loading adaptors on petroleum tank trucks.
