## HBSXBV-XXF Series of Stainless Steel Square Flange Ball Valves for Chemical Tank Truck

HBSXBV-XXF Series of Stainless Steel Square Flange Ball Valves are designed for durability and reliability, they are ideal for use in chemical tank truck and other industrial applications.

### Key Features:

**Precision Casting:** The valve body is made using precision casting techniques to ensure high-quality and reliability.

**High-Quality Materials:** Made from stainless steel 304, 316, and 316L materials, offering multiple options to suit various requirements.

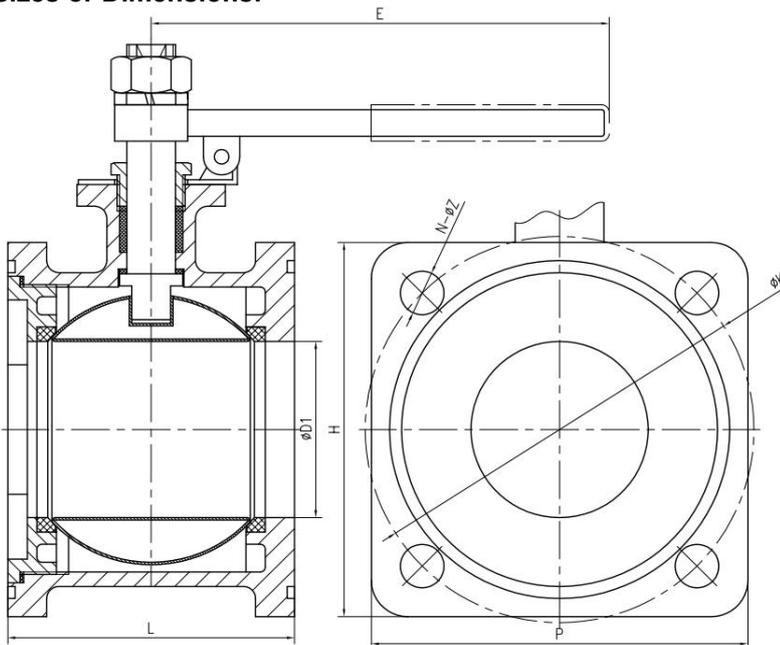

**PTFE Sealing:** Equipped with PTFE sealing materials to completely eliminate leakage.

**Compliance with Standards:** Inspection and processing are conducted according to Chinese national standards.

**Enhanced Durability:** The thickened valve body extends the service life significantly.

**Ease of Use:** Thoughtful design allows for flexible and easy opening and closing of the valve.

### Sizes or Dimensions:

### Specifications:

**Material Options:** SS 304, 316, 316L

**Sealing Material:** PTFE

**Compliance:** Chinese National Standards

**Operating Temperature:** -40° C to 100° C

**Max. Pressure:** 1.6 MPa

### Installation Instructions:

**Preparation:** Ensure that all parts are clean and free from debris. Verify that the valve and piping are compatible.

**Positioning:** Align the valve with the pipeline. Make sure the direction of the flow corresponds with the markings on the valve.

**Mounting:** Secure the valve using appropriate bolts and fasteners. Ensure all connections are tight to avoid leaks.

**Testing:** Once installed, test the valve by operating it several times to ensure it opens and closes smoothly.
