

Customizable Multi-Purpose Hose Reel – Industrial & Fuel Transfer Applications

This customizable hose reel features a nominal pipe diameter of 1.5 inches and comes equipped with a 15-meter-long 1.5-inch fuel delivery hose, mounted on a durable metal base. Other specifications, such as hose length, diameter, and materials, can be tailored to meet customer requirements, making it ideal for various fuel transfer applications.

Customizable SS304 1-Inch Hose Reel – 10 Meters

This customizable hose reel features a nominal pipe diameter of 1 inch and is made entirely of durable stainless steel 304. It comes equipped with a 10-meter-long 1-inch fuel delivery hose. Other specifications, such as hose length, diameter, and materials, can be tailored to meet your specific requirements, making it ideal for various fuel or other liquid transfer and industrial applications.

This series of reels can usually wind 15 meters of 3/4 inch diameter fuel delivery hose. If the size of the inlet and outlet connector is changed to 1 inch, it can wind 10 meters of 1 inch diameter fuel delivery hose. Reel racks of the same size can be adapted to 3/4-inch and 1-inch hoses, increasing product selectivity.

Specifications: Max. Working temperature:65°C

Customizable Manual Cable Reel

Our manual cable reels are designed for reliable cable storage and easy manual winding. They can be customized to meet your specific needs, including cable length, reel size, and material options. Ideal for industrial, workshop, or outdoor applications, these reels ensure safe, neat, and efficient cable management.

Customizable 1-Inch Hose Reel – 10 Meters with Diesel/Gasoline Pump on the top

This customizable hose reel features a nominal pipe diameter of 1 inch and includes a 10-meter-long 1-inch fuel delivery hose mounted on a sturdy metal base. It is equipped with a customizable 1-inch diesel or gasoline pump to suit your specific fuel transfer needs. Additional options such as hose length, diameter, reel color, and materials can be tailored to meet customer requirements, making it an ideal solution for a wide range of fuel transfer applications.

Customizable 1/2-Inch High Pressure Washing Hose Reel – 50 Meters

This versatile hose reel features a nominal pipe diameter of 1/2 inch and comes with a 50-meter-long high-pressure delivery hose, capable of withstanding pressures up to 40 MPa. Available in both manual and electric models, the electric version supports adjustable speed and remote control for convenient long-distance operation. The hose reel includes a hose guide for organized hose arrangement and is mounted on a durable

metal base. The inlet connector features NPT male threads or other standard thread types, customizable per customer requirements. With customizable options including hose length, diameter, reel color, and materials, this hose reel is perfect for industrial cleaning applications such as train station maintenance and other high-pressure washing needs.

Customizable 1-Inch Hose Reel – 15 Meters Red Color (Other colors are for option)

Customizable 2.5-Inch Hose Reel – 25 Meters with Explosion-Proof AC380V Electric Drive

This customizable hose reel features a nominal diameter of 2.5 inches and is equipped with a 25-meter long, 2.5-inch Spiral Steel Wire Reinforced PVC Hose designed for clean water delivery. The hose is mounted on a durable metal base for stable operation. Additional customization options include hose length, diameter, reel color, and materials, including food-grade fittings and PVC hoses, to perfectly meet your specific requirements. This versatile solution is ideal for a wide range of water or other low Low Corrosive Liquid transfer and other industrial applications.

Customizable 2-Inch Hose Reel with 10-meter auto. retractable hose and stainless steel fittings

This 2-inch hose reel comes with a 10-meter rubber hose and an automatic rewind mechanism. Made with durable stainless steel 304 fittings, with an option for food-grade stainless steel 316 for enhanced corrosion resistance. Customizable to meet your exact needs in hose length, diameter, and material type, it's perfect for safe and
